 EXCELLENCE AND DIVERSITY

Dear Parent or Guardian

In order to celebrate children’s achievements, and promote good behaviour at Greenhill Primary School, children’s work is regularly displayed in classrooms, on school newsletters and on the school website. Teachers also use photographs of children in school for ‘Thinking Walls’ and other work within the classroom. Using work and images can be very motivating for the children, a way of sharing their work with you at home and provide a good opportunity to promote the work of the school.

At school events, trips and performances, we will take photographs for display on letters, school calendars and school website. Digital video will also be used at such events for display in the school entrance and to encourage creativity. All staff at Greenhill School follow clear local authority guidance. Children appearing in photographs are identified by year group only and remain anonymous in all school videos.

We ask that parents consent to their child’s image, including producing or taking part in digital video work, to be used in school printed publications, on the school website and for school promotional activities. These will be used for educational purposes only.

The slip below should **only** be returned if you **do not** give permission for your child’s image to appear in school publications and website. Any slips should be returned by the **28th September 2007**. If you have any questions please contact me and I will be happy to discuss this with you.

Yours Sincerely

Emma Crabtree
 Assistant Headteacher

Name of child: _____

I **do not** give permission for my child’s photographic or video image to be made available by the school on either the school website, in printed publications or other media for educational purposes only.

Signed: _____
